KAISER PLANS ANOTHER DASH ON WARSAW

German Capture French Ammunition--Made in America

GERMAN SENTIMENT IS ONE OF WARNING TO UNITED STATES NOT TO INTERFERE

(By Associated Press.)
BERLIN, Feb. 13.—Newspapers and the public are insisting that despite Washington's protest and its possible consequences, the German submarine policy must be pursued. Count Von Veventlow, a naval critic, has published an article containing: "We gather the impression that if the Americans believe they can handle

the German government as they desire by pressure or threats they will fool themselves." The gist of the German opinion is that the neutral powers have been sufficiently warned to keep out of the military area and, inasmuch as Germany is facing a threatened food famine at the hands of Great Britain, there is no other course for her to pursue.

DIVORCE BILL IN COMMITTEE HANDS

ADMINISTRATION BUSY TO PRO-
VIDE JOBS FOR FAITHFUL
WORKERS

(Special to the Bonanza.)
CARSON CITY, Feb. 13.—The easy divorce bill is now in the hands of the senate committee on railroads and internal improvements, really a happy choice from the humorist's point of view. This action took place when a vote was taken for reconsideration. Senator Scanlon was present, but did not vote. Senator Henson was absent. The vote to re-refer the bill to committee was 11 to 9. The motion to reconsider was made by Senator Palmer. Chapin objected to the action.

A strictly administration bill, one to find a job for some Democrat out of work, was introduced providing for a state auditor, to be appointed by the governor. The proposed job is to carry a salary of \$3,000 a year with an annual allowance of \$1,500. Another administration bill, providing for the appointment of a state veterinarian and a board of veterinarian surgeon examiners, was indefinitely postponed in the senate. An amendment was offered to the blacklist bill, making it a felony for any labor union to blacklist any state, county or city official or any judge or legislator.

PRECAUTIONS TAKEN AGAINST AIR RAIDS

WHISTLES WILL BLOW AND
LIGHTS SWITCHED OFF WHEN
AIR FLEETS COME

(By Associated Press.)
HULL, Eng., Feb. 13.—When the whistles blow at night, street lamps will be switched off, street cars stopped and all citizens should run for their basements. Such are the precautions against German air raids made by the military authorities at Hull. It was at first proposed to cut off the electric system and the gas mains entirely, but inasmuch as the householders promised to keep their blinds down, this idea was abandoned.

Three Chins Go Chopside Up

(By Associated Press.)
VANCOUVER, B. C., Feb. 13.—Three Chinese are dead and three in a hospital as the result of a New Year shooting. Chin Guck killed Chin Ham and Chin Chong. Chin Guck jumped from a window and was injured. He then shot and killed himself. The police say it was a tong fight.

SOCIALISTS SUPERVISE ALL ARMY CONTRACTS

CLAIM MADE THAT ABUSES AND
IRREGULARITIES HAVE
OCCURRED

(By Associated Press.)
PARIS, Feb. 13.—The Socialist group in the chamber of deputies has decided to pursue vigorously the supervision of all army contracts. The secretary has written Monsieur Millerand demanding publication in the Journal Officiel of a complete list of all persons and houses furnishing supplies to the army with their addresses and the nature and amount of their contracts. The sub-committee of the budget committee has also asked the minister of war for all records concerning army contracts.

No detailed complaints of irregularities have been made, but the Socialist group declares it has information concerning certain abuses.

FIELD RAILROAD WILL MAKE
INSPECTION OF SYSTEM

W. Cattermole, chief engineer, went to Reno in the private car Mizpah and accompanied them here. It was Mrs. Cutter's first visit to the southern country and she was pleased with the climate. She said to a Bonanza man that she was delighted to see the earth again, after viewing nothing but snow since the winter set in in her Minnesota home and on the way west. Mr. and Mrs. Cutter will spend a few days in Goldfield and will then visit Tonopah before returning east.

DECREASE IN SUICIDE DESPITE WAR'S DESOLATION

(By Associated Press.)
PETROGRAD, Feb. 12.—Police reports for the past year from Warsaw show that the number of suicides there has decreased one-third, notwithstanding the thousands of starving refugees who have crowded the city since the beginning of the war. The number of suicides last year was 671, as against 1,003 for the previous year.

S. P. AND PACIFIC MAIL COMPANIES CONTINUE AS ONE

INTERSTATE COMMERCE COM-
MISSION RENDERS AN IMPORT-
ANT OPINION

(By Associated Press.)
WASHINGTON, Feb. 13.—Retention of control of the Pacific mail by the Southern Pacific company is authorized by the interstate commerce commission. This is the first decision under the provision of the Panama act, requiring railroads to give up competing steamship lines, except when joint ownership of operation would be to public advantage. The railroad's petition set forth that it proposed to operate steamships between San Francisco, Mexico and Central America, also between Mexican and European ports, and Mexican and gulf Atlantic ports. The traffic will be handled by the steamship company which proposed to give up service between San Francisco and New York through the Panama canal, also to Europe, because it might be in competition with the Southern Pacific's mail and water service via New Orleans.

(By Associated Press.)

DEADLOCK IN WESTERN ZONE COMPLETE AND DEVELOPMENTS AWAIT NEW TYPES OF MECHANISM FOR WAGING WARFARE

(By Associated Press.)
LONDON, Feb. 13.—The Kaiser has received General Hindenburg at the eastern front and has decided to make a renewed dash for Warsaw next week, according to an Amsterdam dispatch. The Kaiser is eager to take the Polish capital before the next meeting of the reichstag, so as to induce the house to vote a new war loan without opposition.

(By Associated Press.)
BERLIN, Feb. 13.—A persistent German attack at Argonne gained half a mile of French positions. Artillery and ammunition were found at the western front "which doubtless originated in American factories," says the war office. Regrettable damage to civil population was caused in Belgium by British aviators. The Germans experienced slight losses. Berlin is celebrating the victory over the Russians in East Prussia.

(By Associated Press.)
LONDON, Feb. 13.—The deadlock on the west is so complete that the initiative on land and sea must be left largely to new devices for making war—such as submarines and aeroplanes. The activity of German submarines is believed to be responsible for the sinking of three more merchantmen. England's spectacular aeroplane raid, in reply to this menace, is directed at German submarine bases, and German positions in Belgium, when 34 British aviators dropped bombs on Ostend and other places. Many aeroplanes are under construction and it is believed that yesterday's raid is only a forerunner of many others.

FRANCE LOSES MANY MILLIONS IN REVENUE

FOREIGN COMMERCE DIMINISHES
AND INTERNAL REVENUES
DECREASE

(By Associated Press.)
PARIS, Feb. 31.—Fiscal statistics for the year 1914 just compiled show that diminution of foreign commerce and decrease in return from internal taxes have caused a loss of revenue to France aggregating 193,000,000 francs (or about \$28,400,000). The ratio of decrease was greatest in September, which showed 56,000,000 francs deficit; since then the ratio has steadily decreased by reason of an improvement in foreign trade, the difference in receipts for December being 34,000,000 francs. The decrease in the consumption of taxed beverages during the last five months of the year accounts for 89,000,000 francs of the deficit. The consumption of tobacco is also shown to have diminished, notably from the beginning of the war.

AERIE PURCHASES POLICE STATION

BUILDING TRANSFERRED THREE
TIMES IN THE PAST THREE
MONTHS

At a meeting of Tonopah aerie, No. 271, Fraternal Order of Eagles, held last night, one of the matters of business transacted was the purchase of the police station by the order. Quite an argument, it is learned, arose over the transfer, some of the members holding—simply for the purpose of humorous debate—that it would be a great saving to the city if the building could be acquired and permanently occupied by the membership as an Eagle hall and moot court, such as the fraternity establish at carnivals and Independence Day celebrations. After this serio-comic debate, the transaction was accomplished. The consideration was \$200. The Eagles already owned the lot and it will be continued as used at present, the purchase being merely for investment of a portion of the idle funds of the order. This is the latest of a series of transfers of the building in three months, Ed Malloy selling it to Chief Evans, Mr. Evans to C. L. Richards and Mr. Richards to the aerie.

J. G. HUSSEY RANKS AS COR-
PORAL IN CORPS OF
CADETS

J. G. Hussey, son of R. H. Hussey of Tonopah, is making a national reputation for himself as a member of the New Mexico Military Institute rifle team of Roswell, New Mexico. The institute is contesting for the national rifle trophy offered to military schools by the United States government. Matches are held each week under the supervision of men appointed for that purpose by the war department. All targets are sent to Washington, where they are examined, the scores put on record and given to the newspapers of all the large cities for publication. The institute team is already so far ahead of its nearest competitor that it is assured of winning the much coveted trophy. Our local boy is one of the most valuable members of his team. Mr. Hussey is also reported as making a creditable record in the academic department of the institute. He ranks as a corporal in the corps of cadets and has acquired quite a reputation as a public speaker.
